

COVID -19 Guideline Plans for SMBC

1. Encourage all members/participants to come to any SMBC events healthy. If not feeling well, please stay home.
2. Provide plenty of personal space for events, particularly if they need to be indoors. Hold as many events outside as possible (e.g. "Early Outside Worship") or use "virtual" means.
3. Refrain from touching shared objects such as communion elements, craft items, etc. Items such as drinking fountains are to be disinfected regularly.
4. Use good health habits such as washing hands, covering mouth when coughing, etc.
5. Avoid creating spaces of "people congestion" especially if an event needs to be indoors.
6. Keep groups small (10 or less) and try to keep groups the same ("Pods") for regular events if the number exceeds 10.
7. Face masks are encouraged to be used, especially in indoor settings where social distancing is more difficult.
8. Larger events such as the 10:00 Worship Service will continue to be "Live-stream" only with Worship Team and Tech Team members only allowed in the sanctuary.

Note: These plans are based on current COVID-19 guidelines that apply to "Places of Worship" and will be updated as guidelines change.
